

ROOF INDIA 2018 - Asia's most definitive expo for roofing & allied products!

Press Release April 2018

Roofing industry in India is booming with next generation of ambitious projects. Growth in the infrastructure and industrial segment has been a major demand driver for roof industry.

With increased investment in infrastructure projects, customers are looking for an architectural solution which provides durability, flexibility along with aesthetically pleasing designs in roofs. The construction sector has been a significant contributor to the demand for different types of roofing, owing to the rising global disposable income and increase in infrastructure development of educational institutes, healthcare centers, recreational areas, and office buildings. The future of roof industry is bright considering the high demand in construction industry.
