Industry Overview

The Indian Roofing Industry is experiencing robust growth, fuelled by increasing construction across residential, commercial, and infrastructure segments. As demand shifts from traditional to modern roofing solutions, consumers now seek durability, design flexibility, and sustainability in equal measure.

Green buildings and carbon-conscious construction practices are reshaping the sector. With a **projected CAGR of 7%, the roofing market is on an upward trajectory**. This rapid evolution calls for a focused platform that promotes innovation, facilitates knowledge exchange, and showcases the latest advancements in roofing technology.

About Roof India

The platform showcases a comprehensive range of roofing and allied products, covering segments such as roofing systems, cladding, pre-engineered buildings, metal building systems, tensile architecture, roof landscaping, waterproofing, insulation, roofing machinery, and fastening systems. It serves as a focused B2B meeting point for manufacturers, suppliers, builders, architects, and project consultants.

Recognised as a key sourcing hub for the building, construction, and infrastructure sectors, the event supports business networking, product evaluation, and procurement for projects of all scales. The show continues to drive innovation and excellence in roofing technologies, bringing together market leaders, distributors and decision-makers under one platform.
