Industry OVERVIEW

The Indian Flooring Industry has been passing through an exciting period, thanks to the influx of newer materials, technology, and specialized machinery. Project scales, especially with respect to industrial and commercial flooring have increased dramatically in recent times. The modern connotation of a good Industrial Floor encompasses aesthetics, quick install-ability, longevity, economy, slip resistance, quality, functionality, durability, eco-friendliness, and moisture resistance.

The market is abuzz with innovations and companies constantly upgrading their offerings to meet the growing demand in various segments such as Airports, Metro-Rail projects, shopping malls, IT parks, and SEZs. The swift rise in urbanization, and industrialization, has created a considerable increase in the rate of construction activities, consequently increasing the scope of growth for the global flooring market. These rapid infrastructural developments have increased the demand for flooring products remarkably, boosting the overall market.
