About Roof India 2022

India is the 2nd fastest growing major economy in the world and the Building Construction & Infrastructure industry continues to prosper. Booming construction sector in developing countries and technological advancements boost the adoption of roofing systems, worldwide.

Many new emerging advanced materials and products in roofing and allied systems have made this subject of interest among the architects, designers, builders, contractors and users alike. The 19th edition in 'ROOF INDIA' series of exhibitions will showcase the emerging trends in Roofing and Facade Engineering. ROOF INDIA 2022 will be an excellent opportunity to shape up the future of your business and benefit all its participants – the visitors, the exhibitors, the media... in short, the whole gamut of the Asian Roofing & Facade Engineering Industry. ROOF INDIA 2019 will have more than 100+ high profile exhibitors / brands and over 5000+ key visitors at the Bombay Exhibition Centre, Mumbai, India from 25-27 April 2019.

Roof India has always received worldwide appreciation from all over the industry and proved to be the best business platform in India. This event will serve as Asia's key meeting place, bringing together the roofing professional and buyers and top national and international builders & contractors.

About Floor India 2022 Floor India 2022 will be held concurrent to the 19th Edition of ROOF INDIA 2022, India's only focused Roofing and Allied Products. The event is dedicated for Industrial & Commercial Flooring Solutions along with Cleaning and Installation Technology

Message from The
General Manager
Hyve India

"It gives me great pleasure to welcome you to Roof India 2022, which will take place on April 21-23, 2022 at the Bangalore International Exhibition Centre in Bengaluru, India. A concurrent event Floor India 2022, dedicated for Industrial Flooring segment has been developed as a value enhancement of the platform.

Hyve India's vision is to create a portfolio of events for the roofing and allied industries, and we have been promoting and developing Roof India through our global network. The event has received unprecedented recognition and acceptance as a key event for the roofing industry over the last few years.

India is the world's second fastest growing major economy, and despite the global economic situation, the Building Construction & Infrastructure industry in India continues to thrive. The Indian construction industry is booming, and it is expected to be the world's third largest by 2030, after China and the United States.

The India Roofing market is expected to grow at a CAGR of 7% between 2022 and 2027, reaching a value of USD 9.7 billion by 2026.

By converging at Roof India all stakeholders will be able to take full advantage of the business and networking opportunities available during the three-day show period.

On behalf of Hyve India, I would like to thank all the exhibitors, speakers, delegates, sponsors, associations, and visitors for their assistance in making this event a success.

A handwritten signature in blue ink, which appears to read "Gaurav Sood". The signature is fluid and stylized, with a long horizontal line extending from the end.

(Gaurav Sood)

Message from The
Portfolio Director
Hyve India

I am delighted to be a part of Roof India 2022, scheduled during April 21-23, 2022, at the Bangalore International Exhibition Centre in Bangalore, India. This proven business platform is now enhanced with the dedicated event for Industrial flooring Floor India 2022.

The roofing industry in India is preparing for the next wave of ambitious projects. Demand for roofing materials and solutions is being driven by the development of infrastructure and industrial segments. There is a shift away from traditional roofing systems and toward more modern systems such as metal roofing, particularly in the expanding warehousing segment. Customers are looking for an architectural solution that provides durability, flexibility, and aesthetically pleasing designs in roofs as infrastructure investment increases. Given the high demand in the construction industry, the future of the roof industry looks promising.

In this context, a dedicated event like Roof India is well positioned as the industry's exhibition for raising awareness of the latest roofing trends. With over 7,000 trade visitors in attendance, the event has a high success rate in terms of business deals, networking, and brand promotion.

I'd like to thank all of the Supporting Trade Associations, Media Partners, Exhibitors, and Visitors from around the world for helping to make this a complete event of the industry, for the industry, and by the industry.

My best wishes for a fruitful participation to everyone .

(Gagan Sahni)

Conference

Open Seminar

'Let's Talk Roofing' & 'Flooring Ideas'

DAY 1 | Thursday, 21st, April 2022

0930 Hrs. Onwards

Registration

1100 Hrs. - 1130 Hrs.

Inaugural Function

1130 Hrs. - 1215 Hrs.

Building the Roofs of Future

Opening Address: Ramyo Dey, Asst. Vice President – Planning and Design, Bangalore International Airport Ltd.

Special Address I: Jayaram S Govindaiah, India Head and AVP, Corporate Real Estate and Facilities Management, Mashreq Bank

Special Address II: Shashidhar Sharma, Associate Director, Space Matrix

Audience Q&A Round

1220 Hrs. - 1235 Hrs.

Green Roofing – Bringing a sustainable change with energy efficient roofing system

Speaker: Mageswaran P., Dy.Manager-Engineering (Design), TATA Bluescope Steel

1240 Hrs. - 1255 Hrs.

Choosing right roofing and installing it properly to have a true value of money spent

Speaker: Kaushalkumar S Gupta, CMD, Bansal Roofing Products

1300 Hrs. - 1315 Hrs.

Polycarbonate roof for day light harvesting

Speaker: Niraj Borikar, Country Manager, Danpal India

1320 Hrs. - 1335 Hrs.

Roof Insulation and Waterproofing with 'TPO Membranes made in India'

Speaker: Rajesh Shete, Associate Vice President, GreenShield Constrochem

Conference

- 1340 Hrs. -1355 Hrs.** **Importance of fall protection systems on roof tops**
Speaker: Sanjay Verma, President, Training & Safety Solutions and Special Projects, Mtandt Group
- 1400 Hrs. -1415 Hrs.** **Transforming the steel structures with constructible and connected technology**
Speaker: Sunil Lidkar, National Business Manager – Steel, Trimble Solutions India
- 1500 Hrs. -1515 Hrs.** **Roof – Performance Matters!**
Speaker: Yassar Nabeel Mohamed, Approvals Engineer, FM Approvals
- 1520 Hrs. -1535 Hrs.** **How to choose right mineral wool for roofing application?**
Speaker: Debapratim Dinda, Head-Marketing & Public Affair, Roxul Rockwool
- 1540 Hrs. -1555 Hrs.** **Innovative materials for Roof Restoration!**
Speaker: Bhaven Kothari, Business Head, Waterproofing & Sealants, Tremco CPG (India)
- 1600 Hrs. -1615 Hrs.** **Tensile Architecture – Designed to Impress, Created to last**
Speaker: Arun Madappallath, General Manager, South Asia, Serge Ferrari
- 1620 Hrs. -1635 Hrs.** **Energy efficiency by Cool Roofs**
Speaker: Neetu Jain, Managing Director, Panache Greentech Solutions
- 1640 Hrs. -1645 Hrs.** **Closing Remarks**

Conference

DAY 2 | Friday, 22nd, April 2022

- 1100 Hrs. -1115 Hrs.** **Introduction of WAI (Waterproofers Association of India)**
Speaker: Sandeep Choudhary, President, WAI & Kunjjaan Popat, General Secretary, WAI
- 1115 Hrs. -1145 Hrs.** **Waterproofing specifications and product design requirement**
Speaker: J Srinivas Prasad, Founder and Managing Director, LaGreens India
- 1145 Hrs. -1215 Hrs.** **Solvent free, two component, high performance Polyurethane Membranes**
Speaker: Shomendra Mann, Director, Amchem Products
- 1215 Hrs. -1240 Hrs.** **Preformed EPDM Membranes**
Speaker: Dixit Bajaj, Managing Director, RADCO GROUP
- 1240 Hrs. -1310 Hrs.** **Recent technologies in Waterproofing**
Speaker: Jayant Deogaonkar, Waterproofing Consultant, Greentek Plast
Anand Bajikar, Business Development Manager, Greentek Plast
- 1430 Hrs. -1500 Hrs.** **Expansion joints treatment**
Speaker: D. Maruthu Pandi, Director, Pronil India
- 1500 Hrs. -1530 Hrs.** **Waterproofing membranes - Applications and benefits**
Speaker: Nisha Alexander, National Specifications Manager, Soprema

Conference

- 1530 Hrs. - 1600 Hrs.** **Lightweight Aggregates: Thermal Insulations cum Waterproofing**
Speaker: Sandeep Vidwans, Founder, Enercon now Litagg
- 1600 Hrs. - 1620 Hrs.** **Is Waterproofing an expense or investment?**
Speaker: Maulik Choksi, Managing Director, Shreeji Construction
- 1620 Hrs. - 1640 Hrs.** **Remedial Waterproofing through Injections**
Speaker: Kunjjaan Popat, General Secretary, Waterproofers Association of India
- 1640 Hrs. - 1645 Hrs.** **Closing Remarks by** Sandeep Choudhary, President, Waterproofers Association of India

DAY 3 | Saturday, 23rd, April 2022

- 1130 Hrs. - 1150 Hrs** **Sustainable Construction**
Speaker: Prince Raj Srivastava, Managing Director, Ekta Contech
- 1155 Hrs. - 1215 Hrs.** **Liquid Polyurethane waterproofing systems and Indian case studies**
Speaker: Kalpesh Chitroda, Managing Director, Maris Polymers
- 1220 Hrs. - 1240 Hrs.** **New Age Resin Flooring systems**
Speaker: Susanta Kumar Mallick, Head, Flooring & Business Development, Tremco CPG India
- 1245 Hrs. - 1305 Hrs.** **Densification and Polishing of Concrete Floors**
Speaker: 00Vivek Kulkarni, CEO, Concria India
- 1310 Hrs. - 1330 Hrs.** **Epoxy / PU flooring - Project Management**
Speaker: Kalpesh Chitroda, Managing Director, Maris Polymers
- 1330 Hrs. - 1335 Hrs.** **Closing Remarks**

Manufacturer of Air Bubble Insulation

Organisation Profile

Alutix Insulations has been established with an aim to be the country's leading manufacturer of Air Bubble Insulation, which is also known as Thermal Reflective Insulation. We have formed this set up with an objective to create a Brand that would be known for its Superior quality & excellent customer satisfaction. Alutix has a range of thickness starting from 4mm till 20mm with different laminations. Reflective insulation is a similar insulating and energy conserving product that adds an air cushion, usually in the form of plastic bubble material, between layers of aluminium foil to improve the insulating value of what would otherwise be a simple radiant barrier.

Rain Gutters

Organisation Profile

AQUA STAR is a venture of Ponnore Group, having more than 30 years of experience and expertise in the field of PVC pipes and fittings in pan India and more focused on coastal areas.

Aqua Star was incorporated by Mr. Seejo ponnore Jose in August, 2015 and it is located in Thrissur, Kerala. Launched operations as a small and medium sized enterprise and the journey started with the design and manufacturing of India's first corrugated design uPVC rain gutters. Our first product was Aqua Star Excel 220 mm (8" inch) width rain gutter. The company had humble beginnings after its launch, but it has grown significantly over the years. Now we are manufacturing multiple size gutters. After registering huge success all over Kerala. Aqua star is a R&D focused company and Aqua star's competitive edge lies in its long history of developing and improving the Technologies that drive its business.

USP:

- Aqua Star is the only brand that gives 10 year warranty for our rain gutters
- Multiple sizes gutters
- Aesthetic designs
- Corrugated square design gives more strength to gutters
- Aqua Star uPVC Rainwater Harvesting (RWH) system has been at the forefront in revolutionizing the RWH technology

Fasteners

Organisation Profile

We, Asons Enterprise – Chennai, are India's largest and leading importer of self-drilling fasteners.

Being in the Indian market for 2 decades, we have understood the needs and wants of the market, in terms of various applications and related fasteners for it.

Zinc fasteners in the Indian market are considered low quality products, BUT that's not how we at Asons Enterprise perceive it. We have always been out of the box thinkers and have always wanted to serve the Indian market with the best in quality.

Therefore, with a lot of R&D we have introduced our own brand "Real Fasteners" and under it we have a wide range of products to suit your needs.

Real Fasteners is easily available at your doorstep through our strong and well spread distribution network, backed up with excellent after sales service.

So, come join us and experience the REAL quality in fasteners.

Real Fasteners – Making the Ordinary look EXTRA Ordinary!

Key words - self drilling screw / construction / interiors / wood / fasteners /

Asons Enterprise: understanding your needs is our prime concern.

Dramix ® Steel Fibres

Organisation Profile

Dramix ® from Bekaert entered in India with an agency agreement with Tata's in 1985. In the year 2007, Bekaert started independent operations in India. We have completed in excess of 2000+ projects, spanning more than 5.0 Million Sq. meters in India in a span of about 15 years.

In addition to its technical superiority, Dramix® Reinforced floor is approx. 5% -20% economical and 25 -30% faster to construct as compared to conventional floor due to elimination of bar reinforcement.

Bekaert is having a manufacturing facility in Maharashtra and 2 warehouses in North and South of India, which makes us competent to make the delivery across India.

Bekaert offers you a complete range of steel fibres for the concrete reinforcement for the industrial floors. Every fibre has been specifically engineered to provide the right solution for all of your applications, from standard industrial floors to the most demanding slab on grade applications. The Dramix® 3D series strikes a perfect balance between cost-efficiency and performance for standard industrial & warehouse floors.

Combining mesh and Dramix® 4D fibres offers you the best of both worlds—perfect crack control between 0.1 and 0.3 mm, and the added strength of the mesh. Seamless floor is state-of-the-art technology to cater the flooring needs of Food, Pharma, Cold storage, construction chemical industry.

The Dramix® 5D series offers the ultimate in load-bearing capacity and outperforms any steel fibre on the market today.

Organisation Profile

George Infra Pvt Ltd (GIPL) is a pioneer in Iron and Steel segment in South India with an annual turnover of 350 Cr.

Since its inception in 1995 in the name of George & Company as a trading unit for steel and cement our focus was on maintaining long and healthy relationship with our clients, leveraging on our high standards of quality. Later on, with the changing trade scenario and current growing appeal of prefabricated buildings, we focused our business into the production of Roofing Sheets under "Georoof", Trading and Retailing of Structurals, Flat Rolled products, TMT Bars, Pipes, Hardware, Stainless Steel through retail chain- "Steel Hyper Mart" and also into Steel Construction under "Edge Neoteric Builders".

Keeping innovation at its core, the brand has successfully carved a distinct space in the market within a very short span of time. George & Company has been converted to a private Limited company 'George Infra private Ltd' in 2021.

Plastic Welding & Process Heat applications

Organisation Profile

FLAT ROOF AND PITCHED ROOF - Proven quality

Leister Technologies India Pvt Ltd is a 100% subsidiary of Leister Technologies AG, Switzerland the Global Leader in Plastic Welding Machines. The company belonging to the Leister Group that rides itself on lasting customer satisfaction. The highest product quality, continuous innovation, extensive experience among its employees and outstanding services are clear benchmarks for this. Leister has been a world leader in plastics processing with hot air and hot-wedge technology for over 60 years.

Leister Technologies develops products and systems for plastic welding and process heat applications. With our technologies like hot air, laser and infrared, and our passion for innovative solutions, we're able to significantly influence our market segment and set standards worldwide.

LEISTER IS THE NEW STANDARD OF ROOFING:

Roofing membranes are used as a part of the roof structure, which is laid under the actual roof covering, i.e. under the roof tiles, is a second water-draining layer that protects against drift water, capillary, backwater and condensation water as well as against dirt. Most industrial roofs and some residential roofs are considered flat roofs: From warehouses and shopping malls to apartment buildings and bungalows. For flat roof waterproofing, plastic membranes made of TPO and PVC, or bitumen membranes, are laid overlapping and then tightly welded. Leister offers economical and ergonomic hot air welders for overlap welds on thermoplastic roofing membranes. Thanks to welding parameters that can be monitored and modified. (Even with exposure to unfavourable weather conditions.)

Organisation Profile

The cellulose-bitumen-based roofing and under-roofing material known as ONDULINE was invented and launched on the French market in 1944 by Gaston Gromier. Since then, our core business has focussed on manufacturing lightweight roofing sheets made of recycled fibers and bitumen for pitched roofs. We are the undisputable leader in this segment, manufacturing more than 95% of the world's production of bitumen sheets.

Our products are simple, accessible and easy to install. The light weight and water proofing aspects of our products represent significant benefits for end-customers. The reliability of our materials and components are the result of our unique expertise. They're also asbestos-free, composed of recycled fibers and use natural pigments for coloration. We focus on all aspects of sustainability, from environmental friendliness to positive business practices and to social responsibility.

Onduline started its operations in 2009 from Bangalore in India and has a pan India presence through authorised distributors

Organisation Profile

Established in 1973, Serge Ferrari Group designs, develops, and manufactures innovative flexible composite fabrics for lightweight architectural and outdoor applications. The unique characteristics of these products make them ideal for technical applications in three fields: architecture, specialties for industry professionals, and composite membranes for the consumer market. Its main competitive advantage is based on the implementation of differentiating proprietary technologies and know-how. The Group has four production sites in Europe and one in Asia. Serge Ferrari operates in 80 countries through subsidiaries and sales offices and through a network of more than 100 independent distributors worldwide.

Our desire to create products with high added value for our customers leads us to master a whole range of exclusive technologies – Precontraint technology, Smart Yarn technology, Smart Coating, Smart Lam and X-tension technology to produce quality flexible composite products for:

- High Performance Building Materials – Tensile Architecture, Textile Façade, Acoustic Solutions, Solar Protection
- Advanced Materials – Modular Structures, Sustainable Energy Storage, Safety & Security applications
- Speciality Materials – Indoor & Outdoor Furniture, Yachting Protection, Visual communication

Organisation Profile

Shreeji Sales Corporation, embarked in 2010 has emerged as a leading manufacturer and wholesaler of a diversified range of SIMPOVENT™ Turbo Air Ventilator, SIMPOVENT™ Motorized Roof Extractor & All Ventilation system. Our products are known for their excellent efficiency, high durability and low maintenance. These ventilators are perfect for environments such as factories, as it exchanges the air between the inside and the outside, allowing for coolness and fresh air. We offer customized quality products at very competitive prices, ensuring value for money to our clients. Our ethical business practices and customer-centric approach has won us accolades from our esteemed clientele. We manufacture all the products in our brand SIMPOVENT™.

A well designed building ventilation system will contribute to improved productivity and a safer work environment. Adequate ventilation means stale, polluted or uncomfortably hot air is exchanged with fresh, external air, improving the quality and comfort of the internal environment for building occupants. It can also help reduce energy usage and greenhouse gas emissions.
